THE VILLAGER BUSINESS

HW Home opens new location in Landmark Village

BY KIM AMIDEI

The Landmark Village has added another jewel to the list of businesses now open in the community.

HW Home officially unveiled its store Nov. 28.

Set foot in the new Greenwood Village location, and the tone is established with the historic floor. The wood slats have been reclaimed from a 100-year-old tobacco factory in the Carolinas. What sits on the floor is just as impressive.

The unique store is dedicated to providing exceptional furnishings and services to the clientele.

"We find the most unique furniture, accessories and styles for our customers," David Sumrak, director of marketing, said.

First open in 1999, the mission of HW Home is to work hard to be a leader.

HW Home is introducing new designers, additions from current designers and innovative accessories, including:

- New designs by Thomas O'Brien for Hickory Chair
- Contemporary bedding by Dwell Studio, New York
- Photography from renowned United Kingdom artists'
- Fine art glass from Italian designer Carlo Moretti
- Decorative pillow collection
